

## “Hands Free Web Hosting” - Terms of Service

The following services are offered with the premise that some clients may not wish to be involved with the technical aspects of their websites. Clients wanting a more hands-on approach to web hosting or domain registration are encouraged to deal directly with a hosting provider and we are happy to recommend one.

### Web Hosting - Terms of Service

- iCandyDZine offers space on our hosting server to clients whose website we have designed.
- Web Hosting is on a per annum basis at a rate of \$180.00 (\$15/month)
- Your rate includes one hour of site updating per month! Any additional updates are billed at the regular design rate.
- We maintain a regular backup of your files for safe keeping should an unforeseen problem with the hosting server occur.
- Due to the nature of this program we are unable to provide you with direct access to your files (such as by ftp or web-interface access).
- If you wish to cancel your hosting with us at any time, simply tell us where we should send the files for you (either on disk or uploaded to your new provider). Refunds will not be issued should you cancel with us before the end of your hosting term (1 year).

### Domain Registration – Terms of Service

- iCandyDZine is happy to provide domain registration for clients using our web design services.
- We will invoice you \$35.00 per year which covers our costs and includes a fee for our service.
- Your domain will be registered **in your name**, with our company (iCandyDZine) listed as the contact for technical and billing purposes.
- Domains cannot be cancelled before the yearly expiration but may be transferred at your request. A refund will not be issued for domains transferred before your yearly term has ended.

*These terms are subject to change.  
Any clients using these services  
will be notified as per such.*
